## Review and results of operations (continued)

### Results of continuing operations

The Group's reportable segments from continuing operations are set out below:

<b>Supermarkets</b>	Fresh food, groceries and general merchandise retailing (includes Coles Online and Coles Financial Services)
<b>Liquor</b>	Liquor retailing, including online services

The Group results from continuing operations for the half year ended 31 December 2023, and the comparative half year ended 1 January 2023, are presented below:

	1H24	1H23	CHANGE
Sales revenue (\$ millions)	22,216	20,809	6.8%
Earnings before interest, taxes, depreciation and amortisation (EBITDA) (\$ millions)	1,854	1,809	2.5%
EBIT <sup>1</sup> (\$ millions)	1,064	1,058	0.6%
<b>Net profit after tax (\$ millions)</b>	<b>594</b>	<b>616</b>	<b>(3.6%)</b>
Basic earnings per share (cents)	44.5	46.3	(3.9%)

<sup>1</sup> Includes major project implementation costs relating to ADCs and CFCs (1H24: \$46 million, 1H23: \$17 million).

**Sales revenue** increased by 6.8% to \$22,216 million largely driven by sales growth across all segments. Supermarkets sales revenue grew by 4.9% and Liquor sales revenue grew by 1.8%. The Other segment included \$450 million of revenue in relation to the Product Supply Arrangement (PSA) with Viva Energy Ltd.

**EBIT** increased by 0.6% to \$1,064 million primarily driven by strong sales growth partially offset by an increase in stock loss, particularly in the first quarter, and administrative expenses mostly relating to employee costs.

**Financing costs** increased by 13.9% to \$213 million reflecting increased interest on lease liabilities, additional debt on balance sheet and higher interest rates on debt.

### Balance Sheet

The key balance sheet highlights for the half year ended 31 December 2023 as compared to 25 June 2023 are as follows:

**Cash and cash equivalents** increased by 82.9% to \$1,092 million largely due to issuance of \$600 million of Australian dollar medium term notes (Notes), partly offset by repayment of bank debt.

**Inventories** increased by 23.5% to \$2,868 million primarily driven by the seasonal build of inventory. The balance at 1H24 is broadly in line with 1H23.

**Trade and other payables** increased by 13.2% to \$5,020 million, consistent with seasonal Christmas and New Year trading activity falling at the end of the half year period.

**Interest-bearing liabilities** increased by 49.0% to \$1,666 million mainly driven by the issuance of \$600 million of Notes, comprising of \$350 million 7-year fixed rate Notes and \$250 million 10-year fixed rate Notes offset by repayment of bank debt.

#### Award covered salaried team member review

In February 2020, Coles announced it was conducting a review into the pay arrangements for all team members who received a salary and were covered by the General Retail Industry Award 2010 (GRIA). The review assessed the remuneration paid to 15,011 team members against the GRIA. Coles conducted a remediation program, and to date Coles has incurred \$29 million of remediation costs. A provision of \$21 million (25 June 2023: \$37 million) is reflected in the financial statements.

Following the announcement in February 2020, the Fair Work Ombudsman (FWO) commenced an investigation into Coles' pay arrangements for a group of the affected salaried team members covered by the GRIA.

In December 2021, the FWO filed proceedings in the Federal Court of Australia which include issues relating to the interpretation and application of various provisions of the GRIA. FWO alleges that Coles is obligated to pay a further \$108 million in remediation payments to 7,687 team members for the period 1 January 2017 to 31 March 2020. This group is a subset of the award covered salaried employees which were assessed as part of the 2020 review by Coles. Additionally, the period of time covered in the proceedings is a lesser period than the period covered in Coles' remediation.

Following further consideration of the issues as they have evolved, Coles announced on 2 June 2023 that, it intended to conduct a further remediation relating to the reconciliation of available records of the days and hours of work of salaried supermarket managers. A provision of \$25 million was subsequently recognised increasing the provision reflected in the financial statements at 25 June 2023 to \$37 million. During the current period remediation payments of \$16 million were made against the provision. The FWO matter was heard in a seven week trial from 5 June 2023 and judgment is pending. As such, the potential outcome, extent to which further remediation may be necessary, and costs associated with this matter remain uncertain as at the date of this report.

In May 2020, a class action proceeding was filed in the Federal Court of Australia in relation to payment of Coles managers employed in supermarkets. This matter was heard in conjunction with the FWO proceedings and judgment has also been reserved. The potential outcome and total costs associated with this matter remain uncertain as at the date of this report.

### Review and results of operations (continued)

#### Supermarkets (continued)

##### Highlights

Sales revenue from Supermarkets increased by 4.9% to \$19,778 million mainly driven by the successful execution of key seasonal events including Christmas, Halloween and Father's Day, and a positive customer response to the Curtis Stone BBQ continuity campaign. Sales revenue was also supported by improvements in availability.

During the period, Coles launched the "Great Value, Hands Down" campaign with the prices on more than 500 products dropped, including many essential staples. More than 1,300 products were placed on everyday low prices and we continued to invest in thousands of weekly specials and promotions.

eCommerce sales for the half increased by 29.2% to \$1.8 billion with penetration at 9.1% driven by a strong performance in seasonal events, particularly Christmas and Black Friday, improvements in availability, enhancements to the customer experience and continued network expansion. A range of artificial intelligence and technology automation initiatives were also successfully implemented in customer call centres while pick optimisation initiatives improved efficiency.

Coles 360 continued to build momentum with media income increasing 29.2% over the previous corresponding period.

In the second quarter, total Supermarkets price inflation of 3.0% moderated slightly compared to 3.1% in the first quarter. Inflation excluding tobacco and fresh was 4.0% in the second quarter (5.7% in the first quarter) and was largely driven by dairy due to higher farmgate milk prices and commodity prices including cheese and eggs. Within the fresh category (which includes fresh produce, meat, deli & seafood, and bakery), fresh produce and meat were in deflation across the half, reflecting cycling of seasonal events to the previous corresponding period and falling livestock prices. This was offset by inflation in bakery where wheat commodity prices and labour input costs continue to generate cost price increase requests from suppliers.

Coles completed 11 store renewals, including five Format A and one Coles Local store. Coles also opened five new stores and closed one store, taking the total network to 850 supermarkets across Australia.

Gross margin increased by 10 bps over the previous corresponding period to 26.6%, supported by growth in Coles 360 and lower tobacco sales. While total loss remained an overall headwind, negatively impacting gross margin by approximately 50 bps, this was offset by benefits from range and promotional optimisation initiatives coupled with Simplify and Save to Invest benefits. Stock loss improved throughout the second quarter as stores where loss technology solutions were rolled out delivered positive results. At the end of December, Skip Scan and Smart Gates were operational in 305 and 267 stores respectively.

Cost of doing business (CODB) as a percentage of sales increased by 27 bps to 21.5% with Simplify and Save to Invest benefits and increased operating leverage largely offsetting wage inflation and investments in new stores.

Supermarkets EBIT of \$1,007 million increased by 1.6%, with an EBIT margin of 5.1%. EBIT also includes \$46 million of major project implementation costs compared to \$17 million in the previous corresponding period. Supermarkets EBITDA of \$1,730 million increased by 3.2%.

<sup>1</sup> Gross retail sales are comprised of retail sales on a gross basis before adjusting for concession sales and the cost of Flybuys scheme points.

<sup>2</sup> eCommerce gross retail sales and penetration excludes liquor sold through coles.com.au which is reported in Supermarkets' eCommerce sales, and B2B sales. eCommerce penetration is based on gross retail sales.

<sup>3</sup> eCommerce penetration including Liquor sold through coles.com.au.

<sup>4</sup> Sales density per square metre is a moving annual total (MAT), calculated on a rolling 52-week basis.

### Highlights

Sales revenue for Liquor increased by 1.8% to \$1,988 million. Sales growth was driven by eCommerce growth and contributions from new stores. During the period, customers were increasingly seeking value and managing their overall spend. Transactions continued to grow with modest growth in spend per basket whilst average units per basket were down. Product innovation was a strong driver of growth, particularly in the Ready-to-Drink (RTD) category with several first to market products introduced.

Delivering quality and value to customers through our Exclusive Liquor Brand (ELB) portfolio continued to be a key focus. 199 ELB lines were added to the portfolio and more than 300 ELB awards were received. In addition to our ELB portfolio, investments in value were made with an increase in penetration of "Lower for Longer" price mechanics, also supported by the "Price Match" promise in First Choice Liquor Market and "50 Days of Deals" in Liquorland.

eCommerce revenue grew by 14.9% with penetration at 6.4% (7.6% including Coles Online). Growth was underpinned by the continued strength in the on-demand channel. eCommerce revenue growth in the second quarter moderated to 4.3% as the business reviewed its promotional mix across channels.

During the period, 71 store renewals were completed, ten new stores were opened and three stores closed across the Liquorland, Vintage Cellars and First Choice banners. At the end of the period the portfolio comprised 964 stores.

Gross margin of 22.9% increased by 27 bps driven by strong performances in ELB and local lines coupled with mix benefits partially offset by increased cost of on-demand third-party commissions.

CODB as a percentage of sales increased by 13 bps to 18.6%, driven by increases in store team member remuneration, new stores and renewals and investments in eCommerce and core IT systems, offset by improved operating leverage across the business.

Liquor EBIT of \$84 million increased by 5.0% with an EBIT margin of 4.2%. Liquor EBITDA of \$148 million increased by 5.0%.

## Notes to the Consolidated Financial Statements

The Half Year Financial Report of Coles Group Limited ('the Company') in respect of the Company and its controlled entities (collectively, 'the Group') for the 27 weeks ended 31 December 2023 were authorised for issue in accordance with a resolution of the directors of Coles Group Limited on 27 February 2024.

References in this report to 'half year' are to the 27 week period from 26 June 2023 to 31 December 2023 (1H23: 27 weeks from 27 June 2022 to 1 January 2023) unless otherwise stated.

### Reporting entity

Coles Group Limited is a for-profit company limited by shares which is incorporated and domiciled in Australia and listed on the Australian Securities Exchange (ASX). The nature of the operations and principal activities of the Group are described in Note 2 Segment reporting from continuing operations.

## 1. Basis of preparation and accounting policies

The Half Year Financial Report for 27 weeks ended 31 December 2023 has been prepared in accordance with AASB 134 *Interim Financial Reporting* ('AASB 134') and the *Corporations Act 2001*.

In accordance with AASB 134, the Half Year Financial Report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the 2023 Financial Report and any public announcements made by the Group during the half year reporting period in accordance with the continuous disclosure requirements of the ASX listing rules.

The accounting policies adopted are consistent with those of the previous financial year and corresponding half year reporting period.

The Half Year Financial Report is presented in Australian dollars and all values are rounded to the nearest million dollars unless otherwise stated, in accordance with *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*. The Company is an entity to which this legislative instrument applies.

This Half Year Financial Report presents reclassified comparative information where required for consistency with the current half year's presentation.

### Key judgements, estimates and assumptions

The preparation of the financial statements requires judgement and the use of estimates and assumptions in applying the Group's accounting policies, which affect amounts reported for assets, liabilities, income and expenses. Actual results may differ from these judgements, estimates and assumptions.

The judgements, estimates and assumptions applied in the Half Year Financial Report, including the key sources of estimation uncertainty are the same as those applied in the 2023 Financial Report.

### New and amended standards and interpretations adopted from 26 June 2023

There are amendments and interpretations that apply for the first time in this period. These did not have a material impact on the consolidated financial statements of the Group.

### New and revised Australian accounting standards and interpretations on issue but not yet effective

There are no standards issued but not yet effective that would be expected to have a material impact on the Group in the current or future reporting periods.

### Seasonality of operations

The financial performance of the Group is affected by seasonality whereby earnings are typically greater in the half year due to Christmas trading.

## Notes to the Consolidated Financial Statements (continued)

### 2. Segment reporting from continuing operations

The Group has identified its operating segments based on internal reporting to the Managing Director and Chief Executive Officer (the chief operating decision maker). The Managing Director and Chief Executive Officer regularly reviews the Group's internal reporting to assess performance and allocate resources across the operating segments. The segments identified offer different products and services and are managed separately.

The Group's reportable segments are set out below:

<b>Supermarkets</b>	Fresh food, groceries and general merchandise retailing (includes Coles Online and Coles Financial Services)
<b>Liquor</b>	Liquor retailing, including online services

Other comprises Property and a Product Supply Arrangement that are not separately reportable, as well as costs associated with enterprise functions which include Insurance and Treasury.

There are varying levels of integration between operating segments. This includes the common usage of property, services, and administration functions. Financing costs and income tax are managed on a Group basis and are not allocated to operating segments.

EBIT is the key financial measure by which management monitors the performance of the segments.

The Group does not have material operations in other geographic areas or economic exposure to any individual customer that is in excess of 10% of sales revenue.

Weighted average number of ordinary shares for basic EPS (shares, million)	1,334	1,332
Weighted average number of ordinary shares for diluted EPS (shares, million)	1,337	1,336

#### Calculation methodology

EPS is the profit after tax attributable to ordinary equity holders of Coles Group Limited, divided by the weighted average number of ordinary shares during the half year.

Diluted EPS is calculated on the same basis except that it includes the impact of any potential commitments the Group has to issue shares in the future.

Between the half year reporting date and the issue date of this Half Year Financial Report, there have been no transactions involving ordinary shares or potential ordinary shares that would impact the calculation of EPS disclosed in the table above.

## Notes to the Consolidated Financial Statements (continued)

### 6. Cash and cash equivalents

Cash and cash equivalents are comprised of the following:

	CONSOLIDATED	
	31 DECEMBER 2023	25 JUNE 2023
	\$m	\$m
Cash on hand and in transit	591	511
Cash at bank and on deposit	501	86
<b>Total cash and cash equivalents</b>	<b>1,092</b>	<b>597</b>

For the purpose of the Cash Flow Statement, cash and cash equivalents includes cash on hand and in transit, at bank and on deposit, net of outstanding bank overdrafts which are repayable on demand.

### 7. Interest-bearing liabilities

	CONSOLIDATED	
	31 DECEMBER 2023	25 JUNE 2023
	\$m	\$m
<b>Non-current</b>		
Bank debt	-	72
Capital market debt	1,666	1,046
<b>Total non-current interest-bearing liabilities</b>	<b>1,666</b>	<b>1,118</b>

Interest-bearing loans and borrowings are initially recorded at fair value, net of attributable transaction costs. Subsequent to initial recognition, interest-bearing loans and borrowings are measured at amortised cost using the effective interest method. Gains and losses are recognised in the Income Statement when the liabilities are derecognised.

The carrying values of liabilities that are the hedged items in fair value hedge relationships, which are otherwise carried at amortised cost, are adjusted to record changes in the fair values attributable to the risks that are being hedged. Fair value gains and losses are recognised in financing costs in the Income Statement.

## Notes to the Consolidated Financial Statements (continued)

### 8. Financial instruments

#### Financial assets and liabilities measured at fair value

The following table sets out the fair value measurement hierarchy of the Group's derivative financial instruments:

	FAIR VALUE HIERARCHY	31 DECEMBER 2023		25 JUNE 2023	
		ASSET	LIABILITY	ASSET	LIABILITY
		\$m	\$m	\$m	\$m
<b>Cash flow hedges</b>					
Forward exchange contracts	Level 2	-	(9)	8	(1)
Foreign currency options	Level 2	-	(1)	-	-
Interest rates swaps	Level 2	4	-	7	-
Power Purchase Agreement	Level 3	24	(8)	21	(10)
<b>Fair value hedges</b>					
Interest rates swaps	Level 2	24	-	-	-
<b>Total</b>		<b>52</b>	<b>(18)</b>	<b>36</b>	<b>(11)</b>

The Group measures certain financial instruments, such as derivatives, at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement as a whole.

<b>Level 1</b>	Fair value is calculated using quoted prices in active markets for identical assets or liabilities
<b>Level 2</b>	Fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices)
<b>Level 3</b>	Fair value is estimated using inputs for the asset or liability that are not based on observable market data (unobservable inputs)

For financial instruments that are carried at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There were no transfers between levels during the period.

#### Derivatives

The Group enters into derivative financial instruments with various counterparties, principally financial institutions with investment grade credit ratings. Foreign exchange forward contracts, foreign currency options, interest rate swap contracts and power purchase agreements are valued using forward pricing techniques. This includes the use of market observable inputs, such as foreign exchange spot and forward rates, yield curves of the respective currencies, interest rate curves and electricity futures. In addition, the valuation of the power purchase arrangement includes an unobservable input relating to forward electricity price assumptions.

#### Carrying amounts versus fair values

The carrying amount and fair value of financial assets and liabilities recognised in the financial statements are materially the same unless stated below:

	CARRYING AMOUNT		FAIR VALUE	
	31 DECEMBER 2023	25 JUNE 2023	31 DECEMBER 2023	25 JUNE 2023
	\$m	\$m	\$m	\$m
<b>Financial liabilities</b>				
Capital market debt	1,666	1,046	1,554	913

### 12. Contingencies

In February 2020, Coles announced it was conducting a review into the pay arrangements for all team members who received a salary and were covered by the General Retail Industry Award 2010 (GRIA). The review assessed the remuneration paid to 15,011 team members against the GRIA. Coles conducted a remediation program, and to date Coles has incurred \$29 million of remediation costs. A provision of \$21 million (25 June 2023: \$37 million) is reflected in the financial statements.

Following the announcement in February 2020, the Fair Work Ombudsman (FWO) commenced an investigation into Coles' pay arrangements for a group of the affected salaried team members covered by the GRIA.

In December 2021, the FWO filed proceedings in the Federal Court of Australia which include issues relating to the interpretation and application of various provisions of the GRIA. FWO alleges that Coles is obligated to pay a further \$108 million in remediation payments to 7,687 team members for the period 1 January 2017 to 31 March 2020. This group is a subset of the award covered salaried employees which were assessed as part of the 2020 review by Coles. Additionally, the period of time covered in the proceedings is a lesser period than the period covered in Coles' remediation.

Following further consideration of the issues as they have evolved, Coles announced on 2 June 2023 that, it intended to conduct a further remediation relating to the reconciliation of available records of the days and hours of work of salaried supermarket managers. A provision of \$25 million was subsequently recognised increasing the provision reflected in the financial statements at 25 June 2023 to \$37 million. During the current period remediation payments of \$16 million were made against the provision. The FWO matter was heard in a seven week trial from 5 June 2023 and judgment is pending. As such, the potential outcome, extent to which further remediation may be necessary, and costs associated with this matter remain uncertain as at the date of this report.

In May 2020, a class action proceeding was filed in the Federal Court of Australia in relation to payment of Coles managers employed in supermarkets. This matter was heard in conjunction with the FWO proceedings and judgment has also been reserved. The potential outcome and total costs associated with this matter remain uncertain as at the date of this report.

From time to time, entities within the Group are party to various legal actions as well as inquiries from regulators and government bodies that have arisen in the ordinary course of business. Consideration has been given to such matters and it is expected that the resolution of these contingencies will not have a material impact on the financial position of the Group, or are not at a stage to support a reasonable evaluation of the likely outcome.

### 13. Events after the half year reporting period

Other than events disclosed elsewhere in this report, the Group is not aware of any matter or circumstance that has occurred since the end of the half year reporting date that has significantly affected or may significantly affect the Group's operations, the results of those operations or the Group's state of affairs in subsequent reporting periods.

# Directors' Declaration

The directors of Coles Group Limited (the Company) declare that, in their opinion:

- a) the financial statements and notes of the Group for the half year ended 31 December 2023 are in accordance with the *Corporations Act 2001*, including:
  - I. giving a true and fair view of the financial position as at 31 December 2023 and the performance for the half year ending on that date of the Group; and
  - II. complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of the directors of Coles Group Limited.

## **Independent Auditor's Review Report to the Members of Coles Group Limited**

### **Conclusion**

We have reviewed the accompanying half-year financial report of Coles Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the Balance Sheet as at 31 December 2023, the Income Statement, Statement of Changes in Equity and Cash Flow Statement for the half-year ended on that date, notes comprising a description of accounting policies and other explanatory information, and the Directors' Declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2023 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### **Basis for conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

### **Directors' responsibilities for the half-year financial report**

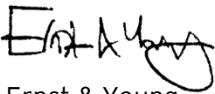

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

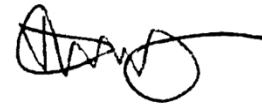

## Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2023 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
